CONFIRMED FINDING

PATH TRAVERSAL EVIDENCE
../path-traversal-example-app.py The application returned content consistent with access to a file outside the intended document directory. HTTP status: 200 Evidence: evidence/audit_20260918-010710/traversal_2_response.txt

EVIDENCE PRESERVED

• evidence/audit_20260918-010710/traversal_1_response.txt	• evidence/audit_20260918-010710/traversal_2_response.txt
• evidence/audit_20260918-010710/traversal_3_response.txt	• evidence/audit_20260918-010710/traversal_4_response.txt

CONCLUSION

Path traversal evidence was confirmed for the tested file parameter based on observed response content. The supporting HTTP responses have been preserved as raw evidence.
